

Keith Goatman
International Business Development
Capita Education

Keith leads Capita's International business team and has worked in education for over twenty years. Following a career as a teacher and then as a lecturer in Computer Science, Keith joined Capita to help develop both their school and local authority management systems. The SIMS software suite is now used daily over 20,000 schools in the UK and around the world.

In recent years Keith has worked closely with the UK Independent school sector ensuring their MIS needs are met by Capita. He has also been helping them understand how the effective use of student management systems can improve both academic and financial performance.
