

Steve Whitley
Deputy Managing Director
Data Harvest Group

Steve Whitley is the Deputy Managing Director for Data Harvest Group. Having worked in the Education arena for over 20 years he has a wealth of experience implementing and using ICT in the classroom. With Export in his brief, the last 7 years has seen Steve spend most of that time outside the UK visiting many countries in the Middle East, Asia the Americas and Europe. As a result he can offer insight into how the issues facing today's educators are being addressed all over the world.

Data Harvest Group Ltd specialises in affordable datalogging and control technologies for Primary and Secondary schools, working closely with teachers and other educational professionals to ensure that the products are simple to use and surpass the requirements of the modern curriculum.
